

What type of property investor are you?

Property management shouldn't be one-size-fits-all.

SHOW ME THE MONEY

- Show me rent as soon as it's paid, even before it's cleared by the banks
- Transfer rent as soon as it's paid (even if it's early) straight into my offset account to minimise mortgage interest
- Pay bills by credit card when they're due, and not a day sooner, for maximum points – while logging everything in my EOFY statement

Straight into an offset account!

TAKE CARE OF IT FOR ME

- Accrue rent to pay bills automatically and transfer me the balance in time for my next mortgage payment
- Don't notify me of bills, unless they can't be covered by rent
- Simplify tax time by pulling all my expenses, no matter how I paid for them, into one EOFY statement

Tax time has never been easier!

LET ME SEE, LET ME CHOOSE

- Direct access to my funds, bills and payment settings, so I can choose when and how to pay myself and bills
- Fast access to my property manager plus on-demand records and live transaction statements, so I can get the information I want when I need it
- More ways to pay for property expenses

Automate the rest!
